

To install or upgrade Paste Master, it is important that you follow these instructions exactly:

1. DO NOT drag anything anywhere.
2. DO NOT double-click **Paste Master.prefPane**
3. Right- or Control- click **Paste Master.prefPane** and choose “Open” from the menu that pops up.
4. If you get a prompt about an unidentified developer, click the “Open” button in the prompt window.
5. The Paste Master preference pane will now open in System Preferences. Make sure the settings are as you desire, make sure “Enable Paste Master” is checked and close System Preferences.
